

Product Code: 02200
Product Name:
SmartSense SmartHub

PRODUCT FUNCTION:

The SmartSense SmartHub allows the user to connect their CAVIUS Wireless Family devices to the CAVIUS App.

SMARTHUB SPECIFICATIONS:

Power: 5 VDC 1A Micro USB – either with the power adapter or USB port on router

Voltage: 5.0 VDC 1.0A (in) & 5.0 VDC 0.5A (out)

SmartHub Dimensions:

Length: 140mm

Width: 80mm

Height: 29mm

Weight: 100g

Colour: White

Certification: RCM, CE

Country of Manufacture: Assembled in Thailand

WIRELESS INTERCONNECTION SPECIFICATIONS:

RF Frequency: 918.65 & 926.365 MHz

Number of RF Codes: 65,535

RF Power: 3mW

RF Range: Up to 100 meters minimal air free

Connection: RJ45 Port (Ethernet)

Compatible/connects with:

CAVIUS Models: 2107 CAV10WF, 2203 CAVMP, 2117 CAV10WFBK, 3107 CAVTH10WF, 2104 CAV5WF, 3104 CAVTH5WF, 9002 CAVSR, 9005 CAVRI.

SMARTHUB & APP FEATURES:

Alarm Identification:

Allocate a unique name to each alarm i.e. 'Jacks Bedroom'.

Activated Alarm Notification:

Receive a notification, via the app, when an alarm has been activated. The app will indicate which alarm has been activated.

Low Battery Alert Notification:

Receive a notification, via the app, when an alarm's battery is low and requires replacing.

Connection Notification:

The alarms will send a 'pulse' every 24 hours to indicate they are connected to the SmartHub. If the SmartHub does not receive the pulse signal or there is an outage with the internet connection – the app will send a notification to the user.

Interconnect Test:

Run an interconnect test to check all alarms are in range and connected to each other.

Fire Drill Test:

Run a Fire Drill within the system, this will activate all the alarms and replicate the alarms response to a real fire event.

Unlimited Users:

Add unlimited users onto one system. There are two levels of users;
Administration (full access to the system)
User (will only receive notifications via the app)

Third-Party Applications:

Works with Google Assistant and ability to intergrade with IFTTT.
